Andriyani:

The paper "HISTORICAL STUDY OF ISLAMIC EDUCATION PATTERNS OF THE PROPHET'S PERIOD AND ITS CONSTITUENCY IN CURRENT ISLAMIC EDUCATION" has been preliminarily reviewed.

Reviewers have given their comments on your paper. Please do the following when you resubmit your revised version:

- (i) All corrections as per the reviewers' comments and prepare a table / response letter showing corrections done.
- (ii) Your corrections will not be accepted in the absence of this response letter / table.
- (iii) All authors' names, emails and affiliations checked and corrected and Add ORCID IDs of all authors

Please ensure the submission of the revision within 1 month of receiving this mail either both as a reply to this mail and in the online system.

The paper can be resubmitted for a review after huge improvements, and this does not guarantee it will be approved.

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

Reviewer Comments

The article entitled "*Historical Study of Islamic Education Patterns of the Prophet's Period and its Constituency in Current Islamic Education*" is nicely organized and discusses a very timely issue. The flow of arguments is good, and the paper succeeds in presenting findings in a way that allows readers to grasp the results. Moreover, the research design is nicely explained. Despite the good quality of the presentation of the paper, I suggest the following change to enhance the quality of the research.

- Please restructure the abstract to reflect 1) purpose, 2) focus, 3) methods and 4) study results in the sequence.
- Please rewrite the problem statement. The explanation is too short and confusing. The introduction needs to justify and articulate the focus and questions of this study from the relevant scholarship, policy, and practice perspectives using relevant literature as support. There is a need to add the most recent citations from peer-reviewed journals in the manuscript from (2017 to 2021) in the introduction
- Although the literature review is well articulated, there is a need to add more explanation about religion and cyberbullying and religious courts in Indonesia. simultaneously like the introduction, there is a need to add the latest citations in the liquid review, and all the references should be aligned in an APS style throughout the paper
- Please make your research methodology with a proper explanation of the method employed.
- The discussion section also needs a description of your study aims and a brief summary of the findings as they relate to these aims, followed by a comprehensive summary of how your findings compare and

contrast to those of previous researchers. This will give the manuscript greater consistency and structural coherence, leaving readers with a clear sense of the manuscript's aims and trajectory. There is also a need to add a table for explaining the learning models and activities covered by all those models under the heading of *SCL Learning Model and Activities in FKK UMJ*

- Researchers should add a new section named conclusion to better understand the readers by presenting a detailed summary of their research.
- There are several grammatical and English errors in this manuscript make it quite hard to read. The article itself is interesting, but it is a difficult read, given the issues above. I suggest authors always have their work edited by an English professional editor before submissions. Find someone who is a native speaker of English to proofread your manuscript.

Overall, we feel confident that if you carefully address the reviewers' and our concerns, your manuscript will make a valuable contribution to the body of literature in the area of religion and its role in controlling cyberbullying.

Andriyani:

The paper "HISTORICAL STUDY OF ISLAMIC EDUCATION PATTERNS OF THE PROPHET'S PERIOD AND ITS CONSTITUENCY IN CURRENT ISLAMIC EDUCATION" has been reviewed again.

Good improvements have been made to the paper. However, there are still minor improvements to be made.

Some considerations:

- 1) Update the abstract in your native language. A small change has been made to the English version.
- 2) There are still missing some relevant information in the research methodology section.

Please ensure the submission of the revision within 1 month of receiving this mail either both as a reply to this mail and in the online system.

The paper can be resubmitted for a review after huge improvements, and this does not guarantee it will be approved.

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.
