Dear Editor/Advisory Board

I read and use scientific articles published in ACBLETI 2020.

The performance of the ACBLETI 2020 was excellent, and the published article helped me conduct research and write scientific reports.

I am Rahmat Salam, Lecturer from Universitas Muhammadiyah Jakarta, Indonesia

I have completed a scientific article entitled "**Waste Management Policy Based on Community Empowerment in Supporting South Tangerang City as a Green City.**"

I hope this article can be published in the ACBLETI because exciting findings in the scientific report can become new treasures in science, especially in social sciences.

I am willing to go through the review process following editorial/advisory board standards.

Best Regards,

Rahmat Salam

Editor and Reviewer comments:

Reviewer #1:

1. The abstract has not discussed the research objectives and results, so readers do not understand this journal.
2. The English in parts approaches is incomprehensible, so as a first step, a firm editorial hand would be needed to figure out what needs to be rethought.
3. The literature review has not explained the theories that are related and relevant to the research object and are well related to the study results.
4. The focus of this research can be developed for further study, both in Indonesia and abroad, because the research topic is very relevant to the novelty of other research.
5. References are good enough, but we still need to find the latest references so that this research becomes more up-to-date.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:
