

Dear Dr. Iswan,

My name is Ruth Admirind, the editor of *Frontiers in Education Technology*. I have had an opportunity to read your paper "Improving Students' Learning Results Through the SQ4R Learning Model Approach" published in *Education Journal* and believe that you are an expert in this field.

Frontiers in Education Technology publishes qualitative and quantitative researches in the following areas:

- Blog Culture and Its Impact on Education
- Collaborative and Group Learning
- Curriculum Development
- Development of Learning Environment
- Education Administration
- Education Policy and Leadership
- Educational Psychology
- Educational Technology
- E-Learning and Knowledge Management
- Elementary Education
- Innovative Pedagogical Models
- Learning Systems Platforms
- Media Education
- Quality Management of E-Learning
- Reading Skill Education
- Science Education
- Tasks and Problem-Solving Processes
- Teaching and Learning Technologies
- Web-Based Learning Platforms

If you have other new, unpublished manuscripts that might fit within our subject areas, please consider submitting to the journal. You are strongly encouraged to send submissions to fet@scholink.org or submit your articles online (<http://www.scholink.org/ojs/index.php/fet/index>). We are also recruiting reviewer for the journal. If you are interested in this position of reviewing submissions, we welcome you to join us. Please download and finish the application form at

<http://www.scholink.org/doc/Application%20Form%20for%20Editorial%20Board%20Members.doc>

For any questions, please feel free to contact me.

Thank you.

Best Regards,

Ruth Admirind

ABSTRACT, Research with the title Utilization of e-learning media the independence learning of elementary school students. This study aims to determine the relationship between the effectiveness of e-learning learning on the learning independence of elementary school students. This research was conducted in Grade V of elementary school, which consist of school, namely: MI Ahmad Dahlan Cipanas, SD Aisyiyah Islamic Center Cianjur, and SD Islamic Creative Cianjur Indonesia. The research method used in this study is a quantitative descriptive approach with a correlation method. The results showed that the variable utilization of e-learning learning media had a significant effect on the learning independence of elementary school students. Based on the statistical test results, the partial t test shows that the significance value of the effect of learning effectiveness (X 1) on independence (Y) is $0.003 < 0.05$ and the value of t count $> t_{table} = 3,089 > 1,980$ then H_0 is rejected and H_a is accepted which is means that there is an influence on the use of e-learning learning media (X 1) on students learning independence (Y). And the

results of the t-test (partial) show that the significance value has the effect of e-learning (X 2) on student learning independence (Y) is $0.000 < 0.05$ and the value of t count $> t_{table} = 7,687 > 1,980$ then H_0 is rejected and H_a is accepted which can be concluded that there is an influence on the use of e-learning learning media (X 2) on the learning independence of elementary school students (Y). According to the results of the regression significance test (F-test) which shows that the value of sig. f-test of $0.000 < 0.05$, so that all independent variable consisting of the use of e-learning learning media have a simultaneous effect on the learning independence of elementary school students at MI Ahmad Dahlan students of SD Aisyiyah Islamic Center, and students of SD Islamic Creative Cianjur Indonesia.

Keywords: Utilization of learning media, e-learning, independent learning

Dear Iswan,

Thank you for your submission. We have received your paper.

We use double-blind system for peer-review. Your paper will be peer-reviewed by two experts; one is an editorial staff and the other is external reviewer. After review, we will inform you the result and comments as soon as possible.

Thank you for your cooperation.

Best Regards,

Ruth Admirind

Dear, Ruth Admirind
Editor

Frontiers in Education Technology

Here I am sending back the results of the revised paper with the title: Utilization of Independent Learning E-Learning Media Elementary school students, if there is still something that needs to be improved I leave it entirely to the editorial team for better refinement. Thank you.

Best regards,
Iswan

Dear Iswan,

We are working on your paper for publication. Please find the current version as attachment.

Please do not change the format and layout, which are designed for publication.

Most importantly, please review the language for errors. If you change anything in the Word file, please mark it in RED.

I look forward to your final revised paper.

Thank you for your cooperation.

Best Regards,

Ruth Admirind
