THE INFLUENCE OF SCHOOL-BASED MANAGEMENT IMPLEMENTATION ON THE
IMPROVEMENT OF EDUCATION QUALITY OF PRIMARY SCHOOL

ABSTRACT, This research was conducted at State Primary School Pondok Betung 05, South Tangerang City. Indonesia. This school is located at strategic area; easy to access by the society, namely on Jalan Raya Pondok Betung No 2. South Tangerang City, Indonesia. This location is closed to the Office of Sub-District Pondok Betung and Public Health Centre of Pondok Betung Indonesia. This research applied quantitative descriptive approach. The statistical tests of the data analysis gained the coefficient correlation of $r_{XY}=0.434$, with two variables being correlated; variables X and Y, and total number of the respondents was 85, thus, $df= 87-2=85$. From the df of 85, the t_{table} on the significant level of $5\%=0.250$ and on the significant level of 1% was 0.278 . The hypothesis test showed that (H_a) was rejected if $t_{cal} > t_{table}$, namely

$0.434 > 0.250$. While (H_0) was rejected since $t_{table} < t_{cal}$, namely: $0.278 < 0.434$. From that comparison, it can be concluded (H_a) was accepted because $t_{cal} > t_{table}$ on the significant level of 0.05 or 5% and on the level of 1% (H_0) was rejected because t_{table} was smaller than t_{cal} , hence, it revealed that the implementation of School-Based Management influenced the quality of education of State Primary School Pondok Betung 05, South Tangerang City, Indonesia.

Prof. Yi Weijian

Clarify the certainty of when my article can be published, because I have paid according to the bill I received from the Hunan University journal manager. I hope to get a quick response, because the manager of the Hunan University journal is having a good reputation. Thus I convey this clarification, hopefully it will be responded well quickly.

Thank you.

Best regards,
Iswan
